

# Passport 2<sup>®</sup>

Monitoring suddenly becomes simple.

## Summary of Features and Benefits

- Exclusive Navigator<sup>™</sup> knob and dedicated function keys make the Passport 2 unprecedented in its ease-of-use
- With a 10.4 inch color TFT display and auto-adjustable large numerics, Passport 2 offers maximum visibility
- Six waveforms with automatic waveform display configuration simplifies use and enhances display management
- Standard features include 6 waveforms, 3 or 5-lead ECG with ESU noise rejection, lead-selectable respiration, NIBP, Masimo SET<sup>®</sup> motion tolerant SpO<sub>2</sub> and temperature
- Many optional features available including arrhythmia analysis, Microstream<sup>®</sup> ETCO<sub>2</sub>, Nellcor<sup>®</sup> SpO<sub>2</sub>, dual invasive pressures, 3-lead ST analysis with trends and alarms, and dual trace recorder
- List and graph trends store up to 120 patient time measurements - expandable to 500 entries with extended memory
- Upgrade software, enhance memory, and transfer data with minimal effort using PCMCIA ports
- Using the View 12<sup>™</sup> Analysis Module, print diagnostic quality 12-lead ECG data to a laser printer
- Base Station docking device offers instant connectivity to various peripheral devices
- 5-agent gas analysis available with optional Gas Module SE<sup>™</sup>
- Network to Panorama<sup>™</sup> Central Station for continuous data storage

Now with up to 5 hours run time on lithium-ion batteries.

**Finally, a monitor that asks less of you.** As medicine asks more of monitors, Passport 2 remains up to the task providing a more valuable and efficient monitoring system. Rather than rummaging through layers of menus, there's a unique Navigator<sup>™</sup> knob. For frequently used functions, there are quick-action keys. Three waveforms will automatically reconfigure to six when needed. Numerics automatically readjust to maximum size for optimal display visibility. Be amazed at what a difference a truly intelligent interface will make. Lightweight and portable, the Passport 2 offers real ease-of-use and configurability, making it an ideal monitor for any department. Who would have thought it possible? A monitor that actually provides more while demanding less.

**Datascope<sup>®</sup>**

PATIENT MONITORING

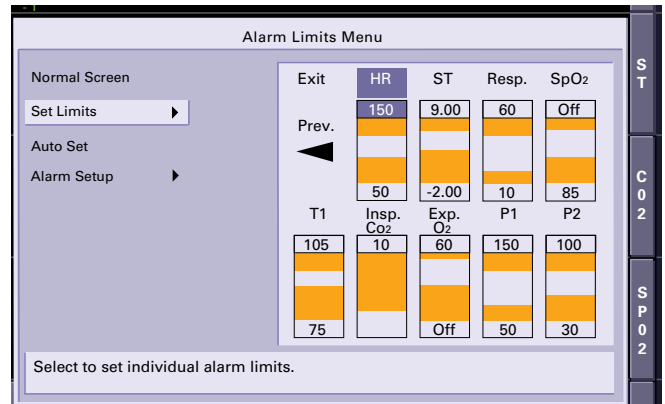

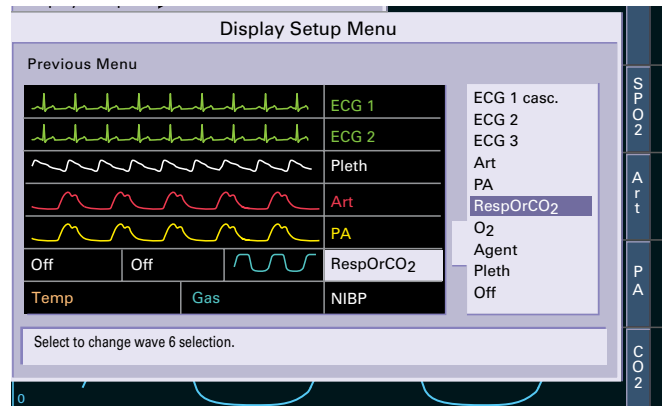

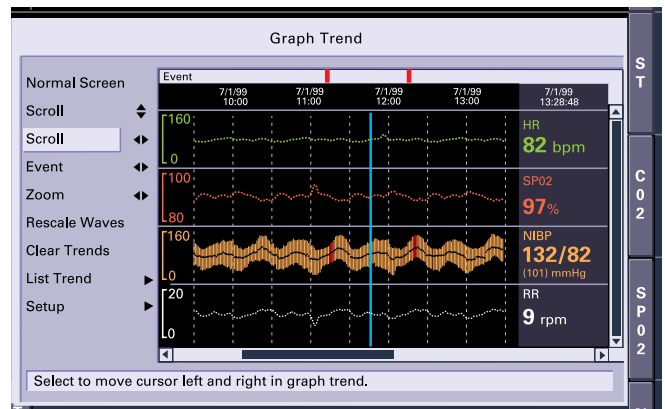

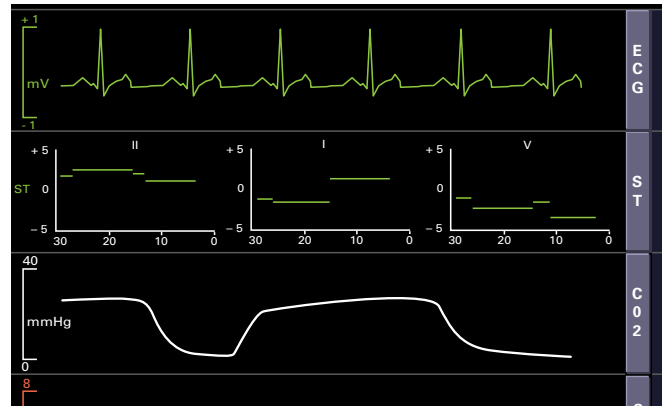

# Passport 2<sup>®</sup>

- ST segment mini-trends and learned ST viewable on 3 leads
- Adjustable Isoelectric and ST measurement points
- Complete ST trend and alarm capability

- View trends instantly using one-touch keypad
- Up to 500 patient time measurements stored
- User configurable trend display with convenient event markers
- OXY-CRG trend for neonatal and pediatric applications

- Convenient display-in-display view allows for quick and easy format changes
- Customize and save a display format for each patient size: Adult, Pediatric and Neonate
- Transfer display settings to another Passport 2 using the data transfer card

- Instant access to Alarm Limits Menu using the one-touch keypad
- Easily identified alarm limits and adjustments
- Convenient Auto-Set alarm set-up adjusts limits around patient's baseline vital signs
