

Spectrum®

What over 40 years in monitoring has taught us.

Summary of Features and Benefits

- Complete hemodynamics package, 12-Lead monitoring and important calculations at your finger tips make critical patient monitoring easy
- The External Module contains the extras you need without sacrificing portability including cardiac output, extra invasive blood pressures and temperature
- View 12™ ECG Analysis Module is a complete cardiology package with 12-lead ECG interpretation, ST analysis and arrhythmia analysis in a compact module
- Use in conjunction with the quick release mount for transport or bedside monitoring in seconds
- Network to a Panorama™ Central Station wired or via telemetry for seamless data collection and remote view capability
- List and graphic trends are expandable to 500 Entries. Oxy-CRG for Neonatal and Pediatric patients
- Standard features you need include large, bright 12.1 inch color display with auto-adjustable numerics, 8 waveforms, 3 or 5 lead ECG, NIBP, Masimo SET® Motion Tolerant SpO₂, Temperature, and Drug Calculations
- Select any of our Optional features to best meet your Department's needs: Microstream® CO₂, View 12 ECG Analysis Module, Nellcor® OxiMax® SpO₂, Cardiac Output, Invasive Blood Pressures, ST and Arrhythmia Analysis, Dual Trace Recorder and complete 5 agent ID, CO₂, O₂, N₂O with our Gas Module SE

Now with up to 4½ hours run time on lithium-ion batteries.

Performance and power meet practicality. Features you need for critical patients... more waveforms, 12-Lead ECG, multiple invasive blood pressures, a comprehensive calculations package and cardiac output... bundled into our easy-to-use monitor that you can transport with your patients.

We use quick-action keys for frequently used functions – which means less time spent looking through menus, increasing your efficiency. Reduce time spent disconnecting the patient from the bedside monitor, re-zeroing pressure lines and detangling the cables by taking the monitor with you... reducing your transport hassles to practically nothing.

Finally, an acute care monitor built for performance and function.

Datascope®

PATIENT MONITORING

Spectrum®

Features, function and flexibility...

all the things you need to care for your patients.

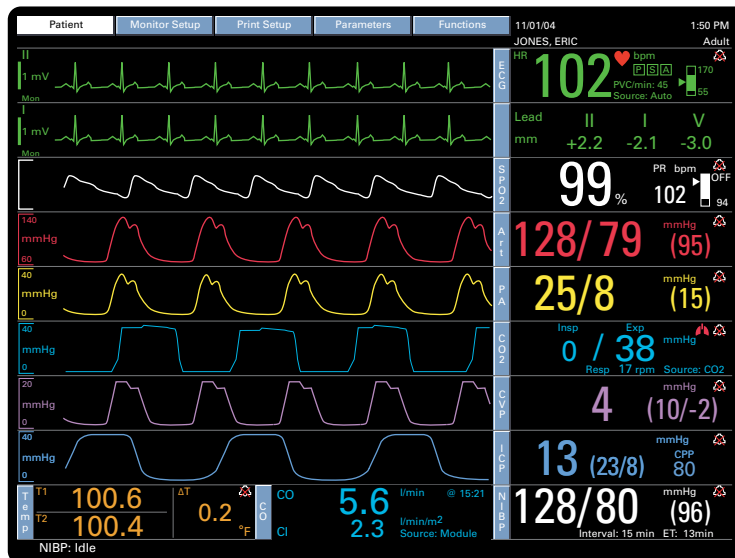

Bring the high-end features where you need them with our External Module, without sacrificing portability.

No wasting of precious time...simply take the Spectrum with you when you transport your critical patients for necessary tests or procedures.

Our View 12™ ECG Analysis Module makes for a complete cardiology package at your fingertips.

Our 12.1 inch display with up to 8 waveforms make this monitor ideal for any environment.
