

# Trio™

Perhaps the most clever compact yet.

**Designed specifically to address the needs of today's highly diverse patient population,** the Trio represents a unique addition to our vast line of innovative products. Its high-resolution color display offers a remarkably brilliant, crisp viewing platform that far exceeds the standard in compact patient monitors. Its efficient design and easy-to-view display make it ideal for use in virtually any department — from traditional bedside monitoring to intra-hospital transport. The Trio offers all of the features you'd expect, in a cost-effective, portable package — the obvious solution to your dynamic monitoring needs.

## Summary of Features and Benefits

- Versatile, portable, configured monitor designed for use in a wide variety of clinical areas. 8.4" color TFT display with a resolution of 800 x 600 provides optimal visualization of patient data
- Standard features include up to 4 waveforms, 3 or 5-lead ECG, Respiration, NIBP, SpO<sub>2</sub> and Temperature
- Many options available including invasive blood pressure, Masimo SET® motion tolerant SpO<sub>2</sub>, Nellcor® OxiMax® SpO<sub>2</sub>, Lithium Ion battery and a dual-trace recorder
- Full graphic and list trends of all monitored parameters
- Patented design with all-in-one fold-away handle and built-in bed rail hook provides maximum flexibility and easy handling
- Built-in Power Supply for direct AC connection allows for convenient transport from one location to the next
- Navigator™ Control Knob and quick action keys make for easy-to-use functions
- Serial Output for connectivity to other devices
